LUMBER

Company Overview:
Lumber is an all-in-one construction workforce management platform that seamlessly streamlines payroll, HR, time tracking, safety, compliance, field productivity, rewards, and recognition for building contractors.

Job Title: Software Engineer (Java Developer)
Location: Whitefield, Bengaluru

About the Role
We are looking for an enthusiastic and detail-oriented Java Developer to join our development team. This is an excellent opportunity for recent graduates or self-taught developers with strong Java fundamentals to kickstart their career in software development. You will work closely with senior developers to design, develop, and maintain Java-based applications, with opportunities to explore modern frameworks like Spring Boot.

Key Responsibilities:

- Assist in the design, development, and testing of Java-based applications.
- Write clean, maintainable, and efficient code.
- Participate in code reviews and learn industry best practices.
- Collaborate with cross-functional teams on development projects.
- Document code and contribute to knowledge-sharing initiatives.

Must-Have Qualifications:

- Candidates specializing in Computer Science or Electronics or IT, with a minimum academic achievement of 80%. This should be consistent throughout 10th, 12th, and Graduation.
- Understanding of object-oriented design and development.
- In-depth knowledge of the language of Java.
- Knowledge of various software design life cycles.

- Analytical and problem-solving abilities.
- Good understanding of software architecture.
- Excellent project management and communication skills.
- Strong understanding of Java programming language, OOP concepts, and data structures.
- Academic or project experience with core Java development.
- Basic understanding of databases and SQL.

Good to Have (Preferred but not mandatory):

- Familiarity with Spring Boot or other Java frameworks.
- Understanding of REST APIs and web services.
- Exposure to tools like Git, Maven/Gradle, or any version control system.

This position is a full-time internship and requires on-site presence at our office.
